

Presentation Booking Details

My presentation covers a great deal of very helpful and immediately useful safety information. Almost 100% of past attendees have indicated that they learned something new from my presentation and that includes people who have been doing home visits for many years!

I have a 2 hour presentation that includes how to avoid becoming a victim and how to recognize and get out of dangerous situations related to in-home work.

The 3 hour presentation is the most comprehensive, covering the previous topics as well as some of the possible scenarios home visitors could encounter and how to get out safely. All of the presentations are lively and interactive. They provide information the attendees can put to use immediately to help them be much safer during visits as well as daily life.

I am happy to speak to any size audience and have experience speaking to groups of 80+ people. Any seating arrangement is fine, but I need a little bit of space at the front for the role play.

Fees:

- \$100 per hour of presentation (I recommend at least 2 hours, but 3 hours is the full presentation.) I can do two sessions on the same day if you have a lot of people who want to attend and can't fit everyone into one room or if scheduling all employees at once is not feasible.
- Travel Expenses- Hotel the night prior booked by the hosting agency and for that evening depending on return flight time, flight booked and paid by the agency (or travel expenses at .5/mi. if within 5 hours drive of Cincinnati OH) and meals either at the hotel or in nearby fast food places. I would also need transportation from/to the airport and speaking location if I'm not driving to your city. This could be a rental car or transportation provided by the host.

Provided by the host:

- A microphone (wireless preferred) for groups larger than 60 people
- A podium (table top type is fine)
- A table at the front of the room
- Power source near the table to plug in my laptop/speakers (If I am flying, it is easier for me if the laptop or other computer is also provided, but it's not required.)
- Power point projector and screen

Provided by the presenter:

- The number of hours of presentation that the host designates which includes an incredible amount of information with a mixture of humor and some role play time.
- Handouts for the number of attendees specified

If the above will work for your event, then please email to check my availability.

SafeHomeVisits@hotmail.com When I'm in town, I answer my emails every few days. But I do travel quite a bit, so if my response is delayed, that is likely the reason. If you don't hear from me within a week, please try again in case your email got lost in cyber space.

My book, Safe Home Visits, is available for \$19.95 through the publisher: www.trafford.com
I look forward to sharing my knowledge and skills with you, your staff and your employees.
